Ryan has pre-scheduled the heating/anti-fog system in his car to be activated every day at 7:00 AM.

The app notifies him that the car is running low on fuel.

It suggests the nearest gas station that is on his way.

He starts the journey.

The car takes the fastest route to the nearest gas station.

The car is fueled up. It takes off again.

Ryan is catching up on his calls and reviewing his pending bills.

The car arrives to the destination.

Ryan is dropped off at the entrance of the client site.

The car parks itself at the nearest available parking space that Ryan has approved via the app.
